INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1938-39 edition of Boyd's Norristown Directory, which also includes Bridgeport and Jeffersonville. Four new features mark this edition. They are the designation of tenant-owned homes, the designation of the population of each house, and the listing of telephone numbers—all in the Directory of Householders—and the Numerical Telephone Guide.

Confidence in the growth of Norristown's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Norristown to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Norristown Directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments

The six major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 8 to 18, on white paper presents lists of borough, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 530, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Norristown and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 533 to 625. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Three new features are included in this section. They are the designation of tenant-owned homes, the designation of the population of each house, and the listing of telephone numbers.

THE NUMERICAL TELEPHONE GUIDE, a new feature, on blue paper, extends from page 629 to page 667.

THE BUYERS' GUIDE, beginning opposite page 668 and separately paged from 1 to 20, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Norristown and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Norristown, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 689 to 766, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Norristown and vicinity.

The Norristown Directory Library

Through the courtesy of the publishers of the Norristown Directory, a Directory Library is maintained in the offices of the Norristown Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the Directory as an advertising medium, with assurance that it will bring a commensurate return.

History

Norristown is the "Gateway to Valley Forge"—America's most sacred historic shrine. While no battles were fought on the present site of Norristown or the immediate vicinity both the contending forces of the Revolution marched over its soil. The founding of Norristown and its history are coincident with that of the state of Pennsylvania and the nation. The names of some of its streets, families and surrounding communities plainly indicate that the first settlers were Dutch, German, Swedish, Welsh and English, not a few of the latter being Quakers. The fine characteristics of the early settlers and the impressions they made can be traced to the present generation. Descendents of some of the early settlers still bearing the family name remain in this vicinity.

The town was laid out under the direction of the University of Pennsylvania by Wm. Moore Smith, who called it the "Town of Norris" in honor of Isaac Norris.

The land covering the present Norristown was conveyed to Wm. Penn by Charles II on March 4, 1681, and was in settlement of 16,000 pounds (about $80,000) due the father of Wm. Penn. On Oct. 2, 1704, Wm. Penn gave his son, Wm. Penn, Jr., the township of Norriton, which included what is now the site of Norristown. It contained 7,842 acres and was called "Manor of Williamstadt." A few days later this tract was sold to Isaac Norris and Col. Wm. Trent for 850 pounds. In the early part of 1712 Col. Trent sold his portion of the tract to Isaac Norris for 500 pounds and went to Trenton, New Jersey. Thus the two thriving cities of Trenton and Norristown preserved the names of their founders.

Isaac Norris was born in London, England, July 26, 1661, and came to this country in 1693 and settled in Philadelphia. He was prominent in public life, holding the positions of Justice of the Court, Mayor and Speaker of the Assembly. He never lived in Norristown or immediate vicinity and the naming of the settlement for him was undoubtedly due to his public activity and ownership of the land. Much of his estate descended to his son Charles.

Evidently speculation in land was carried on in those days. In order to settle the estate of Charles Norris, his widow offered at public auction 543 acres of what is now the center of Norristown and termed the "Norris Plantation." The price received was 4,270 pounds. A few months later it was sold for 4,600 pounds and five years later for 6,000 pounds.

The purchaser of Wm. Smith, D. D. Provost of the University of Pennsylvania, or what later became that institu-

tion, and for its use. The yearly rental from this tract and mills was "500 bushels of wheat or its value in currency." This institution conveyed to five persons for the sum of five shillings the lot upon which the present court house stands, to be held in trust to and for the County of Montgomery. It also laid out the public square, designating that it should be kept open forever.

Originally, Norristown was in Philadelphia County. Montgomery County was created in 1784, and the first business transacted was at an inn in Jeffersonville. The Legislature appointed a committee of five persons to procure land and build a court house and prison. The first court house was in the north corner of what is now the Public Square. The prison was on the site of the present Court House. These buildings cost about $21,000. A whipping post was in the rear of the jail. Swede St. was known as "Jail Lane."

In 1730, The Court of Quarter Sessions changed the name of "Manor of Williamstadt" to Norriton Township. In 1734, there were 20 landholders and tenants in the township; seven years later there were 25 taxables. Eighty-five years later this number had increased to 245.

In 1784, the "Town of Norris" had an area of 28 acres, with less than 100 inhabitants, county buildings, two stores, three taverns, a schoolhouse and about 20 dwellings. Norristown was incorporated as a borough, March 12, 1812. The area was 520 acres, with about 500 inhabitants. In 1812 to 1850, the pupulation grew to 6,000 and the houses to 1,000. In 1853, new territory was added enlarging the borough to its present limit of two miles square.

There has never been anything of the mushroom characteristic about the growth of Norristown. For the last 75 years it has been steady, substantial and permanent. It is conservative in every respect. This applies to its commercial, industrial and financial institutions. These have multiplied, but with a solidity that made them permanent. The increase in population has been substantial and steady from year to year.

Norristown is the birthplace of Winfield Scott Hancock, a major-general of the Civil War. Gen. Hancock was a candidate for the Presidency in 1880, but was defeated by James A. Garfield. His burial place is in Norristown, not far from the spot where he was born.

John F. Hartranft, another son of Norristown, was chosen to lead the volunteers from his native town in the Civil War. He passed from one rank to another until he was made major-general.

The Indian Trail

Main St., the principal thoroughfare of the borough, like many in other places, is a development from an Indian trail in the dense forest. The trail evolved into a path, then the narrow cartway, the country road, the village street and finally a portion of the State highway system. Main St. was originally called "Egypt." The marking of Egypt Road is still visible on some of the old Main St. buildings.

The early settlements were generally made on high ground along rivers or streams, as these provided transportation. The Schuylkill was the name given the river by the first Dutch settlers, and means "Hidden Stream." One can well imagine how nearly concealed this narrow stream was when it flowed through a tall, unbroken forest. The

opening of the canal stimulated transportation. In 1829, 200 boats passed up and down the river. Passenger boats went from Reading to Manayunk. The "Commet" of Norristown made five trips weekly to Philadelphia.

Well-Balanced

The industries of Norristown are well-balanced and diversified so that there are seldom abnormal depressions of employment. The steadiness of employment and low labor turnover and thrift of employees is shown by the $7,000,000 of assets of the 17 building and loan associations.

BOYD'S NORRISTOWN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

Bridgeport Street Guide follows this Department

1938-39

Copyright, 1938, by R. L. Polk & Co., Inc.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol ⓞ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Figures following names denote number of persons living at that number.

Telephone numbers, as supplied to us on our canvass, are shown opposite names. (Exchange is Norristown unless otherwise noted).

CONSULT THE
CLASSIFIED BUSINESS LISTS
IN THIS DIRECTORY
IF YOU WOULD FIND WHAT YOU WISH TO BUY

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

This Publication Is The Product of a Member of

ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS — PRO BONO PUBLICO — ORGANIZED 1898

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
